PU - Polyurethane | **TPU** - Thermoplastic Polyurethane
EVA - Ethel Vinyl Acetate | **PUR** - Polyurethane & Rubber

AU-9161-1224

The RotoFlex # 9161 is packed from top to toe with premium comfort and safety. It is designed to provide extra protection against environments where there is potential for hazardous liquid chemical exposure.

- Black chemical-resistant leather upper safety boot—150mm height
- Full leather upper including tongue and collar
- External Kevlar® stitching for ultimate abrasion resistance
- Heavy-duty zip with full gusset behind the zip to prevent chemical penetration
- Full bellows tongue to reduce splash potential
- Laces and lining made from recycled PET offers moisture wicking and long lasting performance
- Suitable for industries where there is potential for hazardous liquid chemical exposure

GRIPTEK® XHD—biomechanically engineered rubber (PUR) outsole designed for optimum grip and stability

- rubber outsole heat resistant to 300°C
- fuel oil resistant
- excellent abrasion, cut and slip resistance

FORTASHIELD—broad fitting, cut-resistant steel toe cap tested to resist a 200 joule impact.

AIRCELL—uniquely constructed zoned airflow footbed is designed with specialised breathing channels to activate ventilation, moisture control and provide full-body cushioned comfort. The footbed is anti-bacterial, washable and breathable.

SOFTCELL®—the overarching comfort system utilising a combination of specialist materials and the unique biomechanical foot-cradling design to increase stability, balance, comfort and manoeuvrability. Designed to reduce the risk of trips, slips and falls.
