- ▲ Velcro cuff for a secure fit
- ▲ Chemical free production for wearer peace of mind
- ▲ UPF50+ offering maximum sun protection

Standards & Certification

EN 388:2016 4X34FP
EN 407:2020 422321

Force360 recognise that without product certification by a Notified Body all product performance testing, and adherence to standards claims cannot be independently verified. If they are not as claimed, serious safety implications for the wearer, and legal implications for the supplier and even the employer may arise. Force360 source their entire range of mechanics hand protection from a single manufacturing partner to ensure consistency and reliability of product, but most importantly Force360 have taken the further step of engaging a globally recognised Notified Body to audit and certify both the manufacturing process and the products. All of Force360's hand protection is certified to the latest AS/NZS hand protection standards.

Key Technologies

Sinomac Synthetic

Force360's exclusive Sinomac engineered liner not only offers Cut Level F and Cut Level 5 protection, but brings coolness to the hand in combination with a soft, flexible feel that maximises wearer comfort and dexterity.

Armour

The unique TPR structure on the back of hand provides armoured protection against impacts, scrapes and knocks for the wearer.

Touch Screen Friendly

The wearer can leave their gloves on while answering phone messages, reducing the chances of a workplace hand injury.

Reach Compliance

Required Safe pH Level

Certified under AS/NZS 2161.2:2020
