About Black Dog Institute

Black Dog Institute is a global leader in mental health research and the only Medical Research Institute in Australia to investigate mental health across the lifespan. Black Dog Institute's areas of focus include suicide prevention, digital mental health, workplace mental health, new treatments, and prevention in young people. Their unique translational approach allows them to quickly turn their world-class scientific findings into clinical services, public resources, educational programs and e-health products that improve the lives of people with mental illness. Their partnerships with people with lived experience, federal, state and local governments, communities, schools, corporate Australia and others in the mental health sector enables them to drive evidence-informed change in mental health where it's needed most.

Black Dog Institute's areas of focus include suicide prevention, digital mental health, workplace mental health, new treatments, and prevention in young people.
